

SHARKCOPIER™ Duplicators

Introducing the high powered SharkCopier standalone optical media duplicator. The SharkCopier is not only the most advanced duplicator on the market, but is extremely simple to use.

Complete Standalone Operation- No PC required to operate the duplicator

Improved Load & Copy Supported- Improved "Load and Copy" to make duplication from Hard Drive faster than ever by simultaneously copy into the blank media while Loading to the hard drive

Largest Manual Tower Range-

1 to 1 up to 1 to 15

Silver SharkCopiers >

New Dynamic Hard Drive Partitioning- The HDD partitions are created with flexible 1GB partitions that can be used in combination to match the size of the project being stored. This process saves space and allows for more projects to be stored on the HDD

Industry Leading Memory Buffer Up to 256MB* - Keeps all drives burning without pausing (known as buffer under-run) for the most stable and reliable high speed duplication – The higher the memory buffer the less likely to encounter buffer under-run errors

New Supports All Common CD Formats with additional special format including CD-TEXT, ISRC, Over-Burned CD

Improved Drive Firmware Upgradeability - Capable of upgrading the drives for selected brands through the duplicator

Improved Multi-Language capability- The text on the LCD screen can be displayed in English, Spanish, French, Japanese & more. Chinese & Arabic can be added upon request

AutoCopy feature- Fast duplication without pressing any buttons

Account management (password protection)- This function will authorize only specific user(s) to operate the duplicator with their preferred settings. Able to assign numerous passwords for multiple users

Auto-Counter Technology- Displays the total number of discs successfully copied compared to desired output for each project

Hard Drive Partition/Image Name Editing- Simply stated you can name the images stored on the hard drive partitions

User friendly interface with 'easy-to-read' LCD display- Offers easy to recognize and use terms and operations on the LCD display for simple usage

* Available only on specific models.
† CD Only duplicators cannot copy the DVD or Blu-ray format, DVD/CD Only duplicators cannot copy Blu-ray format.
†† Ability to copy Blu-ray, HD DVD, and CD+G format depends on whether the writer drive supports those formats.

Specifications				
Model:	SharkCopier Optical Media Standalone Manual Tower Duplicator			
Target:	1 to 1 up to 1 to 15			
Reader:	High Speed BD Drive, DVD-ROM, CD-ROM			
Recorder:	All qualified brands of PATA writer drives			
Max Writing Speed* For Supported Reading Formats:	6x BD-R Single Layer 20x DVD-R 20x DVD+R	4x BD-R DL 12x DVD-R DL 12x DVD+R DL	2x BD-RE Single Layer 8x DVD-RW 48x CD-R	2x BD-RE DL 8x DVD+RW 32x CD-RW
Hard Drive Options:	HDD optional for 1 to 1, all other models come standard with 160 GB HDD for DVD/CD Duplicator. (Capable of selecting higher capacity HDD)			
Display:	20 x 2 LCD			
Color:	Silver or Black			
Buffer Memory:	Up to 256MB (The largest memory buffer available on the market)			
Language Support:	English, Spanish, French, German, Italian, Japanese, and more (Chinese and Arabic can be ordered on request)			
Partition Naming:	Up to 8 characters per partition			
Account Management:	32 users (Standard License) / 64 users (Premium License)			
Auto Counter:	Up to 9,999 per title			
Supported Reading Formats:	BD-Rom, BD-R, BD-R DL, BD-RE, BD-RE DL, DVD-ROM, DVD-Video, DVD-Audio, DVD+R DL, DVD-R DL, DVD-R, DVD-RW, DVD+R, DVD+RW, Mode 1: CD-ROM, CD-I, Multi-session CD, CD-Plus, Business Card CD-R, 3" Mini CD-R			
Supported Writing Formats:	BD-R, BD-R DL, BD-RE, BD-RE DL, DVD+R DL, DVD-R DL, DVD+R, DVD+RW, DVD-R, DVD-RW, 61mm Business Card CD-R, 3" Mini CD-R, Orange Book standard 74 min/80 min CD-R/RW			
Load & Copy Supported:	Yes (Improved)			
Burn Proof Support:	Yes			
Power Supply:	Input : 90 ~ 240 V, Up to 500 WATT max**			
Operating Humidity:	20% ~ 80%			
Temperature Extremes:	40°C (104°F) / 5°C (41°F)			
Regulations:	FCC, CE, RoHS, & UL***			

How The SharkCopier Aluminum Case Extends The Life Of The Duplicator Drives

The 2 most dangerous elements for any drive are heat and dust. While the drives are in use, they generate a significant amount of heat. To further prevent the drives from overheating and burning out, a fan is needed to pull the hot air out and suck in fresh air to cool the drives down. The problem is, the fresh air has to enter the duplicator through the front of the unit going directly through the drives. This causes the second major threat to a drive, the culmination of dust on the laser head. As the air is sucked through the front of the duplicator, dust particles will collect inside the drives and cloud the laser head. The laser head is the optical nerve center of the drive and conducts the process of burning onto the discs. As dust accumulates, it makes it harder for the laser to perform, forcing the drive to work harder and reducing the lifespan of the drive.

The SharkCopier is specially designed with a special "gill" venting system on each side of the case to allow the air flow into the machine without passing through the drive face. This eliminates approx. 80% of the harmful dust from entering into the drive itself and landing on the laser head. To further prevent dust from entering the drives, the SharkCopier is equipped with exterior drive door covers to block harmful dust particles. In addition, the SharkCopier case is made out of aluminum, which diffuses harmful heat up to 3 times faster than a standard steel case. **By decreasing the amount of heat and dust from disrupting the capabilities of the drives, the SharkCopier can extend the life of the drives by an average of 20% ~ 30%.**

* Range of speed determined by the writer drive used and the blank media writing speed.

** The power supply will differ based on the number of targets.

*** The UL marking only applies to specific units.
